# PROJECT BACKGROUND

Major obstacles to child survival in the developing world include infections, parasitic diseases, malnutrition and the risks associated with low birth weight and high fertility. (UN Informational Letter #37-435) A serious problem exists in the rural villages of Malnesia of children dying from common illness and infections that are attributable to poor nutrition. Though high nutrition foods are available in the villages, it is apparent that mothers do not have an understanding of exactly what foods contain the most value for their children. (Ministry of Health, 1994) The most significant person in the life of the young child is the child's mother. Research has shown that the children of mothers who have an understanding of how to provide good nutrition to their children stand a significantly greater chance of survival during the first three years of life (87% survival rate) as compared with children of mothers who do not know how to provide good nutrition (43% survival rate) (Position Paper, Opening Plenary Session, Malnesian Health Conference - MALHEALTHCON - 96).

The use of volunteers to provide community service is a new concept in Malnesia and can be capitalized upon as a viable way to provide trained manpower for the offering of educational services. The first student service scheme, Service Mahasiswa/SERMAH, was created in the early 1990s. Initially operated at only two universities, SERMAH is now a mandated national program that operates at all public and private universities (Directorate for Higher Education, Ministry of Education, Statistics for 1996). The emphasis of SERMAH has been exclusively on the providing of information to local farmers on improved farming practices. The Universitas Pembangunan Pertanian has been funded by the Ministry of Agriculture to operate the SERMAH Educational Development Center (Introducing SERMAH, Ministry of Agriculture, 1996) as a central agency for the providing of farming practices instructional materials to all universities in Malnesia. The selection and training of student volunteers is conducted autonomously at each university with the support of the instructional materials disseminated by the SERMAH Educational Development Center.

# GOALS AND OBJECTIVES

**TIP: Objectives are the measurable outcomes of the program. They define your methods. Your objectives must be tangible, specific, concrete, measurable, and achievable in a specified time period. Grant seekers often confuse objectives with goals, which are conceptual and more abstract.**

There are two major goals for the "Healthy Moms for Healthy Kids" Project and specific objectives within each of the goals.

## GOAL #1 - TO REDUCE THE DEGREE OF MALNUTRITION AMONG YOUNG CHILDREN.

- Objective #1.1 - To provide mothers in Kota Emessu with relevant information regarding health and nutrition
- Objective #1.2 - To assist mothers in Kota Emessu in learning how to effectively apply health and nutrition information in helping their young children to be more healthy.
- Objective #1.3 - To teach mothers in Kota Emessu how to evaluate changes in the health of their young children.

## GOAL #2 - TO EFFECTIVELY USE VOLUNTEERS AS A MAJOR FACTOR IN HELPING PEOPLE TO LEARN.

- Objective #2.1 - To recruit a group of undergraduate students (15-20 students each semester) at Universitas Pembangunan Pertanian to become volunteers in the "Pusat Ibu dan Anak Sehat" (PIAS) Project.
- Objective #2.2 - To provide a 4 week training program for the volunteers that covers a) basic nutritional information for mothers and b) information on adult teaching methods.
- Objective #2.3 - To place the students in the PIAS Center to offer tutoring services to local mothers.
- Objective #2.4 - To compare the type and degree of volunteer learning that takes place in the PIAS Project as compared to volunteer involvement with SERMAH.

### **How do I customize or create my own version of this sample?**

Using the included Proposal Pack Wizard is the best way to make customized versions of the samples. Using the Wizard and any Proposal Pack you can recreate any of the samples in the visual design theme you purchased as well as branding it with your own logo and design.

- 1) After purchasing, downloading, and installing your Proposal Pack and Wizard software add a new project in the Wizard.
- 2) Click the Pick Documents button then click the View Samples tab.
- 3) Select the title of this (or any other) sample and click the Import Content from Selected Sample button.
- 4) Customize the chapter list as needed to suit your situation. You can add additional chapters from the library of 2000+ topics, reorder chapters, remove chapters.
- 5) When you save your project, the Wizard will build you a custom version of this sample in the visual design theme Proposal Pack you purchased applying all your customizations (logos, font types, color schemes, contact information, etc.).
- 6) Open and edit the Word document to complete your work.
